Professional Summary

Economist with postgraduate training in Development Economics and over three years of experience delivering data-driven solutions to support strategic and policy decision-making. Strong foundation in microeconomics and econometrics, with advanced skills in R, Python, STATA and SQL for large-scale data analysis. Experienced in structuring complex problems, conducting rigorous empirical analysis, and translating results into clear, actionable insights for diverse stakeholders. Background includes academic research, public sector analysis, and consulting-oriented work in healthcare and economic policy. Recognized for strong analytical thinking, effective communication, and the ability to lead projects and deliver high-quality results under tight deadlines.

Skills

- **Teaching & Communication:** Clear and structured explanation of economic and statistical concepts; experience supporting students through tutorials, office hours, and written feedback.
- **Quantitative Analysis:** Strong foundation in microeconomics, econometrics, and applied statistical analysis.
- **Data & Programming:** Proficient in R and Python; working knowledge of SQL, Excel, and Stata for data analysis and modeling.
- **Research & Analysis:** Experience in applied economic research, including macroeconomics and health economics, with focus on data-driven insights.
- **Organization & Reliability:** Highly detail-oriented with a proven ability to manage multiple responsibilities and meet strict deadlines.

Related experience

Dalhousie University

Halifax, Canada

- **Teaching Assistant — Intermediate Microeconomics** *Sep. 2025 – Present*
 - * Led problem-solving sessions for 60+ undergraduate students, strengthening understanding of intermediate microeconomic theory and analytical reasoning.
 - * Graded exams and assignments with high accuracy and consistency, delivering timely and constructive feedback to support student performance.
- **Teaching Assistant — Integrated Science I** *Aug. 2024 – Dec. 2024*
 - * Explained statistical concepts and guided students in applying them using **R** for data analysis.
 - * Supported introductory programming and data analysis through hands-on exercises with real datasets, reinforcing quantitative skills.
- **Research Visitor — Emerging Leaders in the Americas Program** *Aug. 2024 – Jan. 2025*
 - * Conducted research on price rigidities using high-frequency data, applying macroeconomic theory and statistic methods.
 - * Analyzed large-scale datasets to support empirical research, strengthening quantitative and data-driven analytical skills.

IBM

Halifax, Canada

- **Health Data Analyst** *Oct. 2025 – Present*
 - * Performed data validation, cleaning, and processing across multiple healthcare systems, ensuring high accuracy and consistency under tight deadlines.
 - * Identified and resolved data quality issues, improving workflow reliability and reducing processing time in operational tasks.
 - * Collaborated with clinical, administrative, and technical teams, strengthening cross-functional communication and coordination in data-driven environments.

ICESI University

Cali, Colombia

- **Research Assistant — Health Economics** *Aug. 2022 – Aug. 2024*
 - * Conducted applied economic research using large-scale administrative and healthcare datasets, supporting policy-relevant analysis in health economics.

- * Developed data pipelines and web scraping tools in **Python** and **R**, automating the collection of 150,000+ monthly observations and improving data availability for empirical research.
- * Implemented machine learning and statistical methods to detect anomalies in healthcare billing data (approx. USD 1M), enhancing analytical accuracy and efficiency.
- * Communicated findings through clear, structured reports and visualizations, translating complex results into actionable insights for non-technical stakeholders.

Central Bank of Colombia

Bogota, Colombia

• *Research Intern — Macroeconomic Modeling*

Jan. 2022 – Jul. 2022

- * Contributed to research on inflation expectations and perception, supporting the development of a novel indicator using large-scale social media data.
- * Collected and processed over 80 million tweets using **Python** and the Twitter API, building scalable data pipelines for real-time analysis.
- * Applied natural language processing and machine learning techniques to classify and analyze textual data, improving measurement of inflation sentiment.
- * Co-authored a study linking data-driven insights to macroeconomic analysis, strengthening the policy relevance of empirical findings.

Finagro

Bogota, Colombia

• *Research Intern — Economic Research*

Jul. 2021 – Jan. 2022

- * Developed econometric models (**ARIMA**, **ARCH**, **GARCH**) to forecast agricultural commodity prices, supporting analytical work for credit and policy decisions.
- * Contributed to periodic reports for the board of directors, translating quantitative analysis into clear, decision-oriented insights.
- * Automated regional reporting processes using **R**, improving efficiency and enabling faster response times for high-level meetings.
- * Conducted research on agricultural credit origination costs, supporting evidence-based evaluation of financial operations.

Education

Master in Development Economics - MDE

Sep. 2025 – Now

Dalhousie University

Halifax, Canada

- * Awarded by the Graduate Advisory Committee in Economics with Professor George A.B. Kartsaklis Memorial Scholarship

MSc Economics

Jan. 2023 – Jun. 2025

ICESI University

Cali, Colombia

- * Received a research scholarship from Global Affairs Canada to conduct a study on online pricing dynamics during an academic stay in Canada.
- * Selected for a funded academic exchange program in Germany aimed at fostering and enhancing bilateral academic collaboration.

Bachelors degree in Economics

Jan. 2018 – Jul. 2022

National University of Colombia

Bogota, Colombia

- * Granted a full master's scholarship as a result of achieving first place in the XX National Economics Olympiad, hosted by the National Federation of Economics Students (FENADECO).
